	CSL620 Counselling Research Project	4.5		
	Total	**10.5**		

TOTAL CREDIT POINTS   48

Semester 1 notes	Semester 2 notes
Students must successfully complete all units for the GD in Counselling before they can commence units at the Master of Counselling level (displayed Year 2 in table above). It is recommended that students commence the Master of Counselling in S1 to allow the option for either a year-long solo research project (CSL620) or a year-long group research project (CSL677). Trauma Counselling (CSL677) is only available for students enrolled in CSL677 *If student chooses CSL674 in S1/26, they will also need to enrol in CSL677 in S1/26. Alternatively, they can enrol in CSL620 (9cp) instead of CSL674 **and** CSL677.	Other variations to the above course plans are possible. Students need to be aware of the following parameters: ▪ CSL684 Principles of Counselling 2 is offered in S2 only and CSL679 is a pre-requisite for this unit. ▪ CSL674 Trauma Counselling is offered in S1 only. This is an elective unit only available if enrolled in CSL677. ▪ CSL677 Counselling Research Project is a year-long group research project commencing from S1 to S2 only. ▪ CSL620 Counselling Research Project is a year-long solo research project which may be commenced in S2.

Please note: This course plan is a sample only and must be read in conjunction with the full course structure, unit prerequisites and enrolment options as outlined in the Handbook. Students should note that due to unit prerequisites, commencing study in Semester 2 may extend the duration of the course. This information is correct as at DD/MM/YY.
