

## Masters in Community Development: Course Plan

Welcome to the Community Development program at Murdoch; it's terrific to have you as part of the program. Below is a plan to help you enrol in units as you go along in your studies and there is further information about choosing electives and options for research projects on the next page. Please read both pages so you understand what you need to do in coming semesters for your degree. The plan below is for a full-time study load (12 credit points per semester) but can be used if you are part-time by spreading the units over several years. Please get in touch on the detail below if you have questions, or if you are looking for some guidance.

Cameron Tero - Academic Chair for Community Development: [c.tero@murdoch.edu.au](mailto:c.tero@murdoch.edu.au)

<b>Masters in Community Development</b>

Specified Elective											

	Units highlighted gold are core units, and are compulsory
	Units highlighted blue are research and internship units – see page 2 for the choices you have to make
	Units highlighted green are specified electives – choose from the list on the following page

## PROFESSIONAL PLACEMENT (COD608) and ALTERNATIVES

**COD608** is a 6-point placement unit which runs over 2 semesters (Y or H enrolment option), so it's like doing 3 credit points in each of the two semesters. If you're studying full-time you should enrol in this unit in your **third** semester at Murdoch. If you are studying part-time it's best to enrol in the internship unit towards the end of your course. The unit involves undertaking a placement of 160 hours with a chosen organisation, usually over the course of 2 semesters. Students are responsible for sourcing their own placement but are given guidance and ideas about how to go about this at the beginning of the first semester. There is an option to enrol in COD608 in one single semester if needed but for most students we recommend doing this unit over two semesters. Students who don't wish to undertake the internship unit can enrol in 2 alternative 3-point units:

- **AST650:** Culture, Communities and Sustainability in Asia (available semester one)
- **EDN546:** Dynamics of Cultural Diversity in the Workplace and the Community (available semester two)

## RESEARCH UNITS

During your studies you need to choose whether you undertake a short research project (**SUS620: 3 points**) or the longer dissertation program (**ART610: 12 points**). This doesn't need to be decided at the beginning of your course, but you will have to decide about this for your second year (or later if you are part-time).

- Enrolling in the Research Dissertation (ART610) requires an average of a Distinction in your first-year units
- ART610 can be studied in one semester, or spread over 2 semesters
- Students undertaking ART610 are recommended to enrol in **SWM618 Research Design** (3 points)

## SPECIFIED ELECTIVES

You can choose specified electives from those listed below, but if you are interested in units that are not listed here this is still possible, but please discuss this with your academic chair. Most electives run in semester 1 or 2, but some also run in the summer or winter terms, or the trimesters that are run by the Murdoch Business School. Most electives are worth 3 points, but some are worth 6 points. To find out more about these units, visit the Murdoch handbook and search for the unit code: <https://handbook.murdoch.edu.au>
